To initiate a subscription, the Watcher UE generates a SUBSCRIBE request containing the "presence" event that it wishes to be notified of. The message also includes the subscription duration.

Watcher S-CSCF performs an analysis of the Presentity URI and forwards the SUBSCRIBE request directly to the Presence PUA's home network's CSCF i.e. I-CSCF in the destination network.

If all privacy conditions are met, PS sends a 200 (OK) response to the S-CSCF. 200 (OK) is passed all the way to Watcher.

PS sends a NOTIFY request with the current state of the presentity's presence information that the watcher has subscribed and been authorized to.

Watcher P-CSCF forwards NOTIFY to Watcher.

The UE generates a 200 (OK) response to the NOTIFY request. The message is passed to PS as shown.

To initiate the publication, the PUA in UE generates a PUBLISH request containing the presence information that it wishes to publish.

When all privacy conditions are met, PS generates 200 (OK) response towards Presentity PUA.

The UE generates a 200 (OK) response to the NOTIFY request. The message is passed to PS as shown.
